MOHAIR INSTITUTE TO AID BUSINESS

Will Seek to Develop New Uses For Ancient Fabric

Announcement was made recently of the establishment of the Mohair Institute, with A. C. Gage, of Portland, Oregon, editor of the *Angora Journal* and internationally known mohair authority, as director.

The Institute will conduct investigations and researches in various fields of the industry from the breeding of the Angora goat to the finish product, with the idea of improving the quality of the American mohair goats and in developing new uses for the fabric that goes back to Bible times, according to Mr. Gage.

Turkey is the original home of the Angora goat, but the United States now has more mohair producing animals than any other country in the world. There are Angora goats in each of the 48 states with Texas by far the largest producing state. Improved range practices in recent years have resulted in a finished product superior to that produced in the old world. New England is the center of the mohair industry, practically all of the big mills which produce this fabric being located in this section of the country.

Mr. Gage was formerly secretary of the National Mohair Growers' association. In the past four years he has traveled over 100,000 miles in the United States and Canada in behalf of the industry. The Institute's headquarters will be in Chicago.

Mohair has been found by the U. S. Department of Agriculture to be the longest wearing fibre known. The physical nature of the fibre is such as to lend itself to colorings of every hue. It is widely used in the upholstery of motor and railroad cars, good furniture, in the making of quality rugs, robes, draperies, clothing and many other articles. It is estimated that 100,000,000 yards of mohair fabric is in use on today's automobiles and 12,000,000 yards in railroad cars, which use it almost exclusively. The natural resilience of the smooth fibres of mohair pile, their tendency to spring back into a vertical position, makes for greater comfort and riding ease by preventing sliding around in the seat with the motion of the car. Attempts by automobile manufacturers to substitute flannel fabrics of inferior wearing quality in automobile upholstery have met with disfavor on the part of the motoring public. Its use in the upholstery of furniture has enjoyed greater popularity since a process to make the fabric mothproof was adopted some years ago.

GOULD TEAM TRAVELS TO RUMFORD FRIDAY

As announced in last week's issue of the *Citizen* the Gould-Rumford game on Friday will be played at Rumford. Rumford has one of the best teams in the County and the Academy team can only hope to hold the favorites to a small margin of victory. Fans who may follow the team cannot hope for victory but they may gain some satisfaction in knowing that some of the material that is developing will be with us again for another year.

AN ENCOURAGING RECORD

Nineteen-thirty was a year of pronounced progress for the electric industry in the matter of improving and extending service to the public.

During the year the number of new customers increased 500,000; about \$50,000,000 was spent on new construction, and vast sums were likewise spent in maintaining existing property; electric service to farmers increased 18 per cent—the largest gain of any single year on record; domestic consumption of power gained 14 per cent; and total consumption was about the same as in 1929; generating capacity increased 7 per cent; and thousands of miles of new transmission and distribution line were placed in service.

It is of equal public interest that the average rate for household service went down 5 per cent, while gross earnings of the industry increased about 3 per cent over 1929. Yearly consumption by the average household customer increased from 500 to 570 kilowatt hours. Approximately 70 per cent of all homes are now wired, a large part of the wired homes being on farms. Electric progress during the present and future years, it is widely believed, will be outstanding on farms. In addition, improvement in the standards of living of urban homes and increased industrial efficiency will continue to produce a growing demand for power.

The record of the electric industry should be encouraging to the public. If use of power is an index of prosperity, good times will not be long in returning.

BEAR RIVER GRANGE

Bear River Grange met in regular session Saturday evening at eight o'clock. W. M. Addison Saunders was in the chair. Officers present: G. K. E. L. Holt; Chaplain, Nellie Holt; Flora, Frances Davis.

Grange opened in form with 18 members and two visitors present. Minutes of last meeting read and approved. A communication from State Lecturer A. P. Howes was read, notice of the Lecturers' Conference at Waterville, and on motion Grange voted to send the W. L. and pay expenses. Conference will be held Jan. 22-23.

It was voted to have another Whist Party Friday night, Jan. 23. Committee: Frances Davis, Nellie Holt, Fred Wright.

The following committees were appointed for 1931:

Finance—Daniel Wright, Fred Wright, S. P. Davis.

Charity—F. I. French and wife, Arthur Stearns and wife, Fred Wright and wife.

LITERARY PROGRAM

Song, "The Grange is Marching On." All.

Talk by W. M. on "Plans and Purposes of the Grange for 1931."

Piano solo, Robert Davis.

Three-Minute Talks on "Community Needs," C. P. Saunders, L. E. Wright, instrumental music, with encore, harmonica and guitar.

Lon and Daniel Wright, Items of Interest from the National Grange Monthly.

W. L. Addison Saunders, Ernest Holt, Remarks.

Bro. N. S. Davis, Union Grange. A balloon race was enjoyed by all present. Pop corn and candy were served for refreshments. Grange closed in form.

The "Patrons' Times" will be enjoyed at the next meeting, Jan. 31. Roll call, "What I read in the newspaper."

Editorials, Ida Wright.

Current Events, Community and National, Ernest Holt.

Weather Reports, original humorous, P. J. French, Addison Saunders.

Locals, Items of interest regarding Grange members, Ethel Vail.

"Housewife's Column," Nellie Holt, Una Stearns.

Musical World, Robert Davis, Frances Bean, Daniel Wright, Ruth Bennett, Addison Saunders.

Fashions, style show, Carrie French, Minnie Bennett.

Legislature, past and present, L. E. Wright.

Poetry, Daniel Wright, Ella Brown, Emily Strip, cartoons, E. E. Bennett, George Wright, Herbert Morton, Jr., Advertising, Daisy Morton, Ann Bennett, Bertha Bean.

RESOLUTIONS OF RESPECT

By the death of George W. Harden, one of the oldest citizens of our town was removed from our midst and one who had been an old fellow for more than fifty years.

Resolved that in the passing of George W. Harden of this town the community has lost a highly respected citizen and Mr. Abram Lodge a loyal and helpful brother.

Resolved that Mr. Abram Lodge extend to his family the profoundest sympathy.

Resolved that these resolutions be spread on the records of the Lodge and printed in the local paper, and a copy sent to the family of our brother.

E. H. SMITH,
F. E. RUSSELL,
W. P. CLARK,
Committee on Resolutions.

Mrs. Viola Ballard and son, Everett, Dunham, and wife are in town on business. They came from Jacksonville, Fla., by auto, leaving there last Friday.

GROVER HILL

A heavy snowfall Monday. The school children this (Tuesday) morning.

Adelaide Bessell from Bethel was the guest of Mrs. Karl J. Stearns Wednesday afternoon and in the evening they attended the church supper.

Mrs. E. C. Mills has been the guest of her daughter, Mrs. Clyde L. Whitman, at Elmhurst.

Mrs. Bertha Moudt teaches this Saturday in order to give Mrs. Ethel Holt an opportunity to inspect her school work.

Olson Waterhouse has finished work in Mason for Myron Morrill.

MAINE'S BONDED INDEBTEDNESS

Maine's total bonded indebtedness on Dec. 31, 1929 was \$23,759,300, according to a statement presented to the Legislature by the State Treasurer last Thursday.

Of this amount \$17,824,500 was issued for highways and bridges, and \$5,934,800 for the Kennebec bridge between Bath and Woolwich. Among the bonds outstanding are \$500 in Civil War bonds not yet presented for payment.

THE GUTENBERG BIBLE

The Library of Congress now owns a Gutenberg Bible. That is a fact that brings a surge of pride to the heart of every American who respects the Book of Books, or reads any books at all. Heretofore the average American had no chance of even getting a glimpse of a Gutenberg Bible. Only those who went to Europe and succeeded in getting into the very sanctum sanctorum of the most famous public or private book collections could boast of seeing this rarest of books. Now we have one of our own—the best of the lot.

Everybody has heard of the Gutenberg Bible. It is mentioned—or should be—in all histories of Europe, of the art of printing and in all histories of literature. All are familiar with pictures of old John Gutenberg, credited with inventing movable type, laboriously working at the cumbersome hand press—the first. And he did some wonderful work, too, some 40 years before Columbus sailed for America.

All Gutenberg Bibles are rare and costly, but they are not all alike. Today there exist 41 copies printed on paper, seven of which have been acquired by Americans—the latest price paid being \$123,000. But there are just three complete copies printed on vellum. One of these is in the Bibliothèque Nationale at Paris; another is in the British Museum, and the third belongs now to the Congressional Library. Ours is considered the best of all because it is the only three-volume copy; because it is believed to be the first book ever printed, and because of its splendid preservation. It was sold by Gutenberg's notorious partner, Johann Faust, to the Benedictine monks at Paris for \$25, and it has been jealously guarded by them ever since.—The Pathfinder.

At a committee meeting Wednesday it was decided to purchase new seats for Odessa Hall. It is expected that the deal will be closed in a short time and the seats will be in place in a few weeks.

Harold Nason of Portland, driver of the Hodgdon Express truck which overturned near Harry Brown's last November, had another fortunate escape from injury early Tuesday morning when the big Mack truck which he was driving tipped over on Pigeon Hill. Mr. Hodgdon was with him, and neither he nor the truck and load were harmed, due no doubt to the skid shoes.

Local News

Miss Irene Nason of Augusta is a business visitor in town.

Miss Esther Lyle of Portland was at home over the week end.

Mrs. Ava Bartlett, who has been ill for several months, is gaining.

Mr. and Mrs. Wesley Wheeler were Sunday callers at S. L. Granger's.

Mrs. E. B. Hall and Mrs. L. H. Wright were in Bangor over the week end.

Mr. E. C. Park went to Bath Monday to visit his daughter, Mrs. Harry Mason.

Eugene Andrews of Norway was a guest of his sister, Mrs. Harry Iman, Sunday.

Mrs. Gertrude Bean of Gorham, N. H., is the guest of her sister, Mrs. Harry Brown.

Mrs. Emma Berry of West Paris is spending the week with her sister, Mrs. Davis Lovejoy.

Gardner Brown and Arthur Ladd went to Lewiston with a truck load of potatoes last week.

Mrs. Harry Sawin and Laurence Bartlett were week end guests of her sister, Estella Bean, of Albany.

Robert Ladd, clerk in the First National Store, has been transferred to Waterville where he will serve as manager.

Mr. and Mrs. Leslie Lapham and Miss Esther Lapham visited his parents, Mr. and Mrs. T. L. Lapham at Rumford, Saturday.

At the regular meeting of Sunset Rebekah Lodge Monday evening, Jan. 19, a short program was enjoyed in honor of Thomas Widley, the founder of Old Fellowship. Quarter Members Night and roll call will be observed at the next regular meeting.

The Ladies' Aid met with Mrs. Ella Clark, Thursday afternoon, with 15 members present. After the devotion, a business session was held, a special feature being the appointment of committees as follows: work committee, Mrs. Constance Wheeler, Mrs. Ada Tyler, Mrs. Carrie French, Messrs. Alice and Minnie Capen; program committee, Mrs. R. C. Daisell, Mrs. P. L. Lapham, Mrs. Bertha Wheeler. This was followed by the reading of the constitution and by-laws and roll call of members with quotations in response. Meeting then adjourned to meet with Mrs. R. C. Daisell in two weeks.

SOME FAIR DATES TO BE LATER THIS YEAR

Several Maine fairs will be held at later dates than usual next fall. Dates for a number of fairs are governed by the State Fair at Lewiston which opens Labor day. This is Sept. 7th this year. The following dates have been announced to date:

Aug. 3, 4, 5—Bridgton
Aug. 10, 11, 12—Cornish
Aug. 17, 18, 19, 20, 21—Skowhegan
Aug. 22, 23, 24, 25—Bangor
Aug. 31, Sept. 1, 2—Ellsworth
Sept. 1, 2, 3—Waterville
Sept. 1, 2, 3—Houlton
Sept. 7, 8, 9, 10—Lewiston
Sept. 7, 8, 9—Blanchard
Sept. 15, 16, 17—South Paris-Norway
Sept. 15, 16, 17—Farmington
Sept. 29, 30, Oct. 1—Fryeburg
Sept. 29, 30, Oct. 1—Union
Oct. 7, 8, 9—Danvers
Oct. 13, 14, 15—Topsham

WHITE HOUSE AUTOS

"Believe it or not," the White House has more Fords than any other make of car. All told, there are nearly 30 cars assigned to executive use. They include nine Fords, eight Cadillacs, five Pierce Arrows, 3 Lincolns, 1 Packard, 1 La Salle.

The Fords comprise six sedans, two station wagons and a truck. These are used by subordinate subordinates, for household purposes mainly. The President, of course, uses the larger cars. He has 10 at his command. They bear the coat of arms of the United States and are designated by District of Columbia license numbers from 100 up.

The Vice-President is assigned but one machine. In addition to the coat of arms emblazoned on its doors it bears the initials "V. P." The Pathfinder.

At a committee meeting Wednesday it was decided to purchase new seats for Odessa Hall. It is expected that the deal will be closed in a short time and the seats will be in place in a few weeks.

Harold Nason of Portland, driver of the Hodgdon Express truck which overturned near Harry Brown's last November, had another fortunate escape from injury early Tuesday morning when the big Mack truck which he was driving tipped over on Pigeon Hill. Mr. Hodgdon was with him, and neither he nor the truck and load were harmed, due no doubt to the skid shoes.

MISS HATTIE FOSTER

Miss Hattie Foster died at 12 o'clock Monday night at the home of Mrs. Fritz Goddard after a long period of frail health. On Dec. 19, she suffered a shock and the second seizure on Monday night resulted in her death.

She was born at Newry, Dec. 12, 1835, the daughter of Jefferson and Nancy Bennett Foster. She has been a resident of Bethel village for many years, devoting her life to the care of her parents, putting aside every thought of self and giving them every comfort possible as long as they lived.

She was a faithful attendant of the Congregational church, a member of the Ladies' Club, serving as secretary for several years. She was one who was interested in everything pertaining to the best interests of the community in which she lived, a kind neighbor and good friend.

She is survived by several cousins but no nearer relatives. Funeral services will be held this Thursday afternoon at 1:30 from the Congregational church, Rev. L. A. Edwards officiating. Burial will be at Sunday River cemetery.

NORWAY DEFEATED GOULD 37-8

Quimby Only Scorer for Gould at Norway

The Norway first team took a one-sided game from the locals on the Norway floor last Friday to the tune of 37-8. Because of the disrupted condition of the team, due to ineligibility of Bartlett and Littlehale, Coach Anderson has been working a number of underclassmen in an effort to work up some material for next year. Whitman, McNally, and Stanley played two quarters and while in the game the team was defeated 21-8. In the other two quarters Hinkley, Twaddle, and Stevens played and the Norway quint held them scoreless at 16-0.

Custer Quimby proved the only scoring threat of the game for Gould. The small floor proved a little too fast a game for the inexperienced Gould team and hence they were literally played off their feet. Because of the lack of development in the upper classmen, Coach Anderson intends to use underclassmen a good share of the time for the remainder of the season. Some likely looking material is showing up and it is hoped that some experience may be gained by next year.

The following is Gould's lineup:

GOULD	FG	FT	TP
McNally, rf.	0	0	0
Twaddle, rf.	0	0	0
Stanley, lf.	0	0	0
Stevens, lf.	0	0	0
Whitman, c.	0	0	0
Hinkley, g.	4	0	8
Quimby, g.	0	0	0
Hamlin, lg.	0	0	0
	4	0	8

DELIGHTFUL TEA AT STUDENTS' HOME

Mrs. Chaplin entertained over 40 members and friends of the Ladies' Club last Thursday afternoon at the Marian True Ickling Students' Home. The teachers of the grades and the Academy were special guests.

After a short business meeting a most pleasing program was carried out by several of the young people as follows: Xylophone solo, Kathryn Herrick; Vocal solo, Kathryn Russell; Vocal solo, Catherine Lyon.

Refreshments of cake and ice cream were served by several of the Academy girls.

Gould Academy Notes

Miss Littlehale was in Portland during the week end.

Rev. Mr. Daisell gave a brief but interesting address at the chapel exercises on Friday morning.

The annual basketball tournament was held Thursday afternoon, January 22, at the Academy. The teams of the grades and the Academy were special guests.

After a short business meeting a most pleasing program was carried out by several of the young people as follows: Xylophone solo, Kathryn Herrick; Vocal solo, Kathryn Russell; Vocal solo, Catherine Lyon.

Refreshments of cake and ice cream were served by several of the Academy girls.

EAST MILTON

Ernest Billings has the mumps on one side of his face.

Donald Farnum has been having the chicken pox.

A little more snow makes it better for the loggers.

Enos Farnum has taken his men out of the woods, all but the teamsters who are still hauling.

Mr. Carter has moved back to Bethel. The school is expected to begin next Monday.

Mr. and Mrs. Elwin Pingree are receiving congratulations on the birth of a son, Jan. 17. The little one has been named Stanwood Lynne Pingree. Mother and baby are getting along fine. Mrs. Pingree's mother is caring for her.

Flora Billings is staying with her grandmother a while.

Charles Cane is so he is out again after having the mumps.

Horace Hopkings is staying at the home of Farnum's.

SOUTH PARIS

Mrs. Lila Knight, who, since the death of her husband some years ago, has been living with friends at Norway, is moving back to her home on Church Street. Harry Lowell and family, who have been occupying her house, have moved to the Farnum house on Western Avenue.

Manette Brown was home from Annapolis, Md., where she was in the Women's Division of the local Fair Bureau met Jan. 21st. The subject was Main Dishes and Leftovers.

Mr. and Mrs. Charles Noyes are having with her parents, Mr. and Mrs. Fred Herriman, Church Street. Mr. Noyes is the operator at the Strand Theatre.

Mrs. Laura Bassett, who has been in frail health for several years, passed away at the home of her daughter, Mrs. Frank Kimball, of Nichols Street. She has been blind for some years and has been tenderly cared for by her daughter.

Mr. and Mrs. Scott Martin have moved to their new home on Pine Street.

The Women's Division of the local Fair Bureau met Jan. 21st. The subject was Main Dishes and Leftovers.

Mr. and Mrs. Charles Noyes are having with her parents, Mr. and Mrs. Fred Herriman, Church Street. Mr. Noyes is the operator at the Strand Theatre.

Conveyors Carry Ford Car Parts

Trains unload in the plant.

Bodies starting through the shop.

Conveyors carry wheels with mounted tires over a line on which cars pass to completion.

The highly important part played by conveyor systems in all Ford Motor Company manufacturing and assembly plants is graphically shown in the above three pictures taken in the recently opened Edgewater, N. J., plant. One of the pictures shows how parts may be unloaded from freight cars within the plant only a few feet from the various assembly lines. Another picture shows automobile bodies starting their trip on a conveyor while the third view is of the conveyor system used to bring wheels to the chassis which are also moving on a conveyor. As indicated in the picture, a constant flow of wheels on which the tires have already been mounted moves around and over the chassis assembly line. As a chassis enters the section, workers in groups of four, each take a wheel from the hooks and fasten it to the chassis.

No More "Beef and Beer", As Athletic Records Fall

EDITOR'S NOTE:

Lawson Robertson is without question one of the greatest trainers known to the American track. He not only has coached many famous runners and weight men, but he also was a notable athlete himself, competing in the Olympics at St. Louis in 1904 at Athens in 1906, and at London in 1908. He was trainer and coach of the American Olympic team in 1912, '20, '24, and '28. In view of the new records constantly being established, we have asked Mr. Robertson to explain the improvement in speed and stamina of the present day athlete. Surely no one is better qualified to speak authoritatively.

—EDITOR.

By Lawson Robertson
A Famous coach of the University of Pennsylvania, and trainer of American Olympic teams

THIS balanced diet now is so common in the training of the American athlete, that I don't think many of the present day track enthusiasts ever stop to consider how comparatively new this present system really is. We take it more or less for granted that runners, jumpers and weight men naturally balance their meat and other protein foods with certain cereals and fibrous or leafy vegetables to provide the bulk so necessary for proper elimination. Whole rice, which is nearly ideal because of its smoothness and volume of bulk, spinach, lettuce, carrots and beets—all are found regularly on college training tables these days. But I think you will find that the way things were done only a few brief years ago.

Beef and beer—believe it or not—were the mainstays of many an athlete who has now in just the twinkling of an eye, passed on to the realm of the departed. The reason for such a diet was, of course, that it was easy to eat and it was easy to digest. But it was also easy to overeat and it was easy to become fat. The new training diet, on the other hand, is a balanced diet, a diet that is easy to eat and easy to digest, but it is also a diet that is easy to overeat and easy to become fat. The new training diet, on the other hand, is a balanced diet, a diet that is easy to eat and easy to digest, but it is also a diet that is easy to overeat and easy to become fat.

LAWSON ROBERTSON

that the intake just equals the output. Balancing our meat with plenty of fruit and cereal or vegetable cellulose—both, in other words, will do it, and at the same time help keep the weight normal for those whose lives are sedentary. Don't misunderstand me, however. I don't advocate putting a lot of fatness on an athlete. A quarter of a pound of fat is a very heavy load. I don't mean to say that we keep a proper balance of nature in these days. When we think of the amount of our present day athletes, we don't have to wonder and why they are so fat. On the other hand, we don't have to wonder why they are so fat. On the other hand, we don't have to wonder why they are so fat. On the other hand, we don't have to wonder why they are so fat.

LOCKE MILLS

Mr. and Mrs. Lester Tobbetts were in Lewiston and Auburn Saturday afternoon.

Mr. and Mrs. Philip Bailey are receiving congratulations on the birth of a son named Bernard Barton. Mrs. Ingersoll of Bolster's Mills is caring for her.

Mrs. Eleanor MacFarlane of Auburn is visiting her sister, Mrs. Lester Tobbetts, for a few days.

Mr. and Mrs. Harry Swan were in Newry Saturday.

Mrs. Silas Kenniston and Edith visited overnight recently with her aunt, Mrs. Clayton McIntire, at South Weymouth.

Mr. and Mrs. Alvin Averill were in Andover Sunday.

Mrs. Claire Tobbetts entertained several little girl friends Monday afternoon to celebrate her tenth birthday.

Theodore Brett was at his home in Weymouth Sunday.

Quite a few have their ice all cut and in.

Mrs. Alice Farrington, Mrs. Hannah Gudge and Louise Kimball spent the day Sunday with Mrs. Ida Crocker.

Ethel Littlefield visited the week end at her brother's, Raynor Littlefield's.

Maude Salls spent the week end at her home here.

Mrs. Clarence Waterhouse and Mrs. Harmon Cummings are both enjoying new Easy washing machines.

Maurice Prince of Norway was in town last Tuesday on business.

MILTON

George Davis, Llewellyn Buck, and Charles Poland have been hauling ice from Abbott's Mills.

Howard Thornton is hauling lumber for Asa Sessions and has moved to the Harding place for a few weeks.

Mrs. Ola Clifford of Rumford visited her aunt, Edith Jackson, over the week end.

Lewis Verrill is trucking lumber for Moses Hardy.

Mr. and Mrs. J. H. Achey have gone to Bridgton to stay with her daughter, Mrs. Florence Merrill, who is family sick.

Walter Millett has been laid up for the last week on account of a fall he received at Mann's mill, but is gaining now.

Brunswick-Baxter Paper Box Company expect to resume operations in near future.

Stops Headache in Five Minutes

A Wonderful Formula Ends Aches and Pains Almost Like Magic. Something Easier and Safer. Thousands of men and women are now stopping throbbing, sick, dizzy, aching headaches, as well as the excruciating pains of rheumatism, neuritis, toothache, etc., with a marvelous new formula that is said to be far superior to anything heretofore used. It contains no aspirin, acetanilid, etc., and is absolutely safe and harmless. This remarkable formula, called A-VOL, is being prescribed by thousands of doctors, dentists and welfare nurses because of the quick, efficient way it relieves all types of aches and pains without depressing the heart, or causing any other harmful effects. A-Vol quickly stops the most severe pain, leaving the patient refreshed and feeling fine. Especially effective in women's period pains. To quickly prove to yourself that this is truly a remarkable formula, just step into your nearest drug store and get a package of A-VOL for a few cents. Take a couple of tablets right there. If your pain is not gone in five minutes, the clerk will return your money.

THE OXFORD COUNTY CITIZEN

PUBLISHED EVERY THURSDAY
AT BETHEL, MAINE
CARL L. BROWN, Publisher
Entered as second class matter, May 7, 1908, at the post office at Bethel, Maine.

Cards of Thanks, 75c. Resolutions of Respect, \$1.00. Reading notices in town items, 10c per line.
All matter sent in for publication in the Citizen must be signed, although the name of the contributor need not appear in print.

Single copies of the Citizen are on sale at the Citizen office and also by W. E. Boesman, Bethel; Stanley and Donald Brown, Bethel; Lawrence Perry, West Bethel; Richard H. Hild, Bethel; Gordon Chase, Bryant Pond; John K. Chase, Hallowell.

THURSDAY, JANUARY 22, 1931

WEE ANTS COOPERATE

If you ever watch a colony of ants, you will find them engaged in building their tiny houses. One by one, each ant, bearing a tiny particle of soil and depositing it in a hole in the ground, is building a little mound which in time becomes a large one. The ants are so busy that they do not seem to care for the fact that the mound is growing. They are so busy that they do not seem to care for the fact that the mound is growing.

If the ants in a community would take a lesson from the little ant, how much faster would town improve. If each man in the town would do his part, working in unison with every other citizen who was striving to reach the same goal, efforts would take form and results would be evident before anyone realized he had expended much real energy in the undertaking. Soon a town could be built, a place to be known as "our" town, "our" community, "our" enterprise, "our" pride.

HOW

HAILSTONES GROW WHILE TORRENTS ABOUT BY STORM.—Although East Indian story-tellers spin yarns of hailstones as large as elephants, says Time, never have scientific men seen such a phenomenon, never will. The largest they record weigh little over a pound.

Hail is a by-product of thunderstorms only. It is caused by the upcurrents of the storm carrying moisture particles to an altitude where they will freeze. As they drop back toward the earth the fountainhead of the cloud will carry them upward again, and add more snow and ice to their structure. Their size is limited only by the power of the wind to carry them upward on successive trips.

When thunderstorms are violent they are known as hailstorms on sea. They are caused by a combination of moisture particles in the atmosphere. A water droplet in the air is a tiny sphere of water. It is so tiny that it is not visible to the eye. It is so tiny that it is not visible to the eye. It is so tiny that it is not visible to the eye.

The water droplets in the atmosphere are tiny spheres of water. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye.

The water droplets in the atmosphere are tiny spheres of water. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye.

The water droplets in the atmosphere are tiny spheres of water. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye. They are so tiny that they are not visible to the eye.

TRAFFIC SIGNALS GUIDE BABY SALMON OUT TO SEA

Electric Nets Are Placed In Coast Streams by United States Government.

San Francisco.—Offspring of salmon that spawn in Pacific coast streams, in obedience to the biblical command to be fruitful and multiply, will head toward salt water next spring guided by under-the-water traffic signals. Knowing little of the ways of life, the baby fish are being aided by the United States government which is now busy improving the stop and go signals for the unsophisticated salmon. Late in October and early in November the mother salmon rushed upstream, leaving their salt water roaming places for the time being. In fresh water eggs were laid. Sometime in December the eggs will hatch but the newcomers will remain in the streams until next spring.

Aided by the current resulting from the full stream, the fish will put out to sea for the first time. Between their birthplace and open water there lies many a hazard. Blind ditches and shallow creeks are the principal danger to baby fish. In these ditches and creeks they sometimes stray and wander about aimlessly, vainly seeking the water. It is such a hazard that Uncle Sam has decided to prevent. So electrically charged wire nets are placed over the mouths of these ditches and streams. When the young salmon strikes the net he turns back to the river channel. Dodging the electrical shocks, the salmon ultimately reaches the sea.

Thousands of dollars are expended annually by Uncle Sam, the task of getting the baby salmon safely out of the spawning grounds being his contribution to the fishing industry.

Army Surveys Site for Proposed Nicaragua Canal

Washington.—Under a tropical sun, the United States army corps of engineers is surveying a route across Nicaragua for a canal to supplement the famous Panama waterway. Maj. Gen. Lytle Brown, chief of engineers, said in his annual report.

Maj. Dan L. Sullivan, formerly connected with the office of the engineering chief here, is in direct charge, assisted by the Twenty-ninth engineers and parts of the First and Eleventh engineers.

The survey, which supplements and modernizes one made thirty years ago, was authorized by congress in March, 1920. Whether or not a Nicaraguan canal will be built at any time in the near future is a moot subject among both engineers and statesmen, but the government is anxious to collect all data necessary to the work should it be authorized.

"Preliminary plans and estimates," Brown said, "are being made for a canal of suitable dimensions for the larger commercial vessels and increased traffic of today and that which may reasonably be anticipated in the future."

Brown's report showed the canal sited at the mouth of the engineering corps in 1920 and the estimated strength 4,074.

Brown's report showed the canal sited at the mouth of the engineering corps in 1920 and the estimated strength 4,074.

Brown's report showed the canal sited at the mouth of the engineering corps in 1920 and the estimated strength 4,074.

Brown's report showed the canal sited at the mouth of the engineering corps in 1920 and the estimated strength 4,074.

EAST BETHEL

Mrs. Chura Rayford is at O. B. Farwell's.

Mrs. Maggie Newton is sick with rheumatic fever.

G. K. Hastings & Sons, O. B. Farwell and Ceylon Kimball are harvesting their ice.

Guy Bartlett got hurt quite badly in the woods last week by a limb striking him in the face. The wound required a number of stitches.

Pretty Wedding Was Spoiled

By HELEN ST. BERNARD

THE great Barstow house was ready for its bride. From the street to the veranda a bright awning was stretched, through which the guests, carefully chosen indeed, would pass to the house. The great living room was a bower of flowers, and at the farthest end the south-covered dining room with lilacs and ferns awaited the fair Lillian Barstow and John Wesley. It was all as it should be. Mrs. Henry Barstow had overlooked no detail to make the wedding of her lovely daughter to the son of Senator Wesley perfect—the event of the season.

Caterers were in the kitchen, preparing for the elaborate reception that would follow the ceremony and a great gold harp was in readiness beside the piano in the palm-embowered conservatory at the rear of the living room.

The entire town of Allendale was interested in this marriage, for Lillian Barstow, the daughter of their wealthiest citizen, had always been a favorite. The night that John Wesley, son of Senator Wesley, returned to Allendale after six years at college and a year abroad, to take his place in his father's law office, they had met in the country club dinner-dance and had shared three dances sitting on the veranda talking golf and fishing. And there had followed a delightful courtship on which the town had smiled indulgently.

A June wedding was decided upon, and immediately Mrs. Barstow started plans for an elaborate event such as would befit her daughter and John. And for the first time in her life, Lillian overruled the plans of her mother, who wanted to have the wedding take place in church. And she was helped by her portly Uncle Ben, Mrs. Barstow's brother.

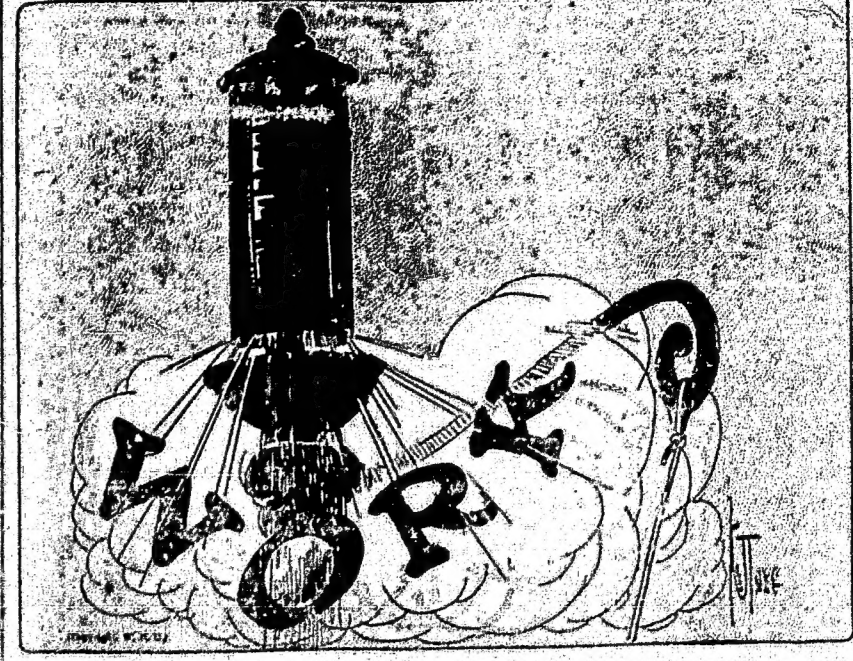

"Let the girl have something to say about her own wedding, Luella. You did," he argued. "Why, she just let me off, she was so mad to death and she was John. She has always hated fuss and feathers and so does he and they would a heap rather stop at a country parsonage or down at the justice of the peace office."

"But Mother loves fussing and fixing. Uncle Ben," laughed the prospective bride. "So I guess it will have to be a long satin train and orange blossoms, although we are both—sisters—sisters! But think of all the fun Mother is having getting ready for this party!"

And the hour had arrived. Mrs. Barstow was well pleased with everything as she entered the living room. She knew everything was in perfect order; the four lovely bridesmaids in their lovely frocks were gathered in the guest room, and the golden and white Lillian was in her own room. She had asked that she should not be disturbed until morning she meant what she said, they had respected her wishes. Her guest was spread on the bed, the veil in readiness.

Senator and Mrs. Wesley, the latter elegant in black velvet, stood beside Mrs. Barstow at the right of the altar. Uncle Ben and Aunt Amy were directly opposite and the room was brilliant in flowers and color.

The Key to Normalcy

A FARM WOMAN'S DESIRE

The ideals set forth in American Farming by Mrs. Bessie T. Rieter are good for all farm women and women in towns and cities or any place where homes are made.

"For the first time in my life I am writing down what I, as a farm woman want most. Sure I would like to have an electric washing machine, a paneled bathroom and an electric grill, but what I want most is so to develop this farm home that our children, no matter where they may go, will have beautiful memories and lasting strength of character because of having been in it when young. I want them to be good and fine, to choose some honorable calling and to succeed in it, and I want to so live for and with them that they will say, 'My mother was an inspiration to me.'"

"I want to be free from debt, clean and orderly. I feel the need of mingling in church and community affairs for the common good of all. I want most each year to learn to plant and cultivate vegetables and flowers and genuinely appreciate rural life. I want to love both star and elod.

"I want to remain calm in the tumult, cheerful in trial, and leave a home lovely enough that someone else will want to live in it; a work of enough importance that another will be willing to carry it on. I desire to store my mind with good literature, music, pictures and friendships, so that when old, I will never be discontented or unpleasant."

REFRIGERATOR-CAR INVENTOR

One of the neglected personalities of American industrial history is Edwin T. Beal, who died a decade ago. When but 17 years old, Earl induced his father, a California fruit grower, to provide a car with an ice box and let him take grapes to the East to sell. The father interested the Southern Pacific Co. in the project, and young Earl stopped at points along the way and bought ice for his car. He peddled the grapes in Philadelphia at a profit. It was the first carload of perishable products to reach the East, and Earl perfected and patented the refrigerator ventilator car, from which he made a large fortune. The invention not only made it possible to bring California fruits and vegetables to the East, but it revolutionized the movement of meat and other perishables everywhere. The Patent.

The Detroit superintendent of schools, Frank Cody, first vice-president of the Michigan Humane Society and a nationally known school man, is quoted as saying: "Humane education is one of the most effective forms of character building." The school system of that city includes a directive of humane education. Pledge and composition contests are presented annually in the schools and Junior Humane Societies are organized. The Dumb Animals.

Reason is the blood of the law. Coke.

"Why waste time trying to find out the cause of the present business depression; what difference does it make? These periods of depression come along, they last a certain time, and go. They're about due to go now. When things are at their worst, it generally is about two months from that time that the change comes. The way to meet hard times is to prepare for the better times that are sure to follow."—Paul Shoup, president of the Southern Pacific.

NOTICE OF LOST BANK BOOK

Notice is hereby given that the Bethel Savings Bank has been notified that book of deposit issued by said bank to Mrs. Nellie Littlehale and numbered 1473 has been destroyed or lost, and it is desired that a new book of deposit be issued.

BETHEL SAVINGS BANK,
By A. E. Herlick, Treas.,
Bethel, Maine.

NOTICE OF FORECLOSURE

Whereas Herbert H. Morton and Daisy B. Morton, both of Newry, County of Oxford, State of Maine, by their mortgage deed, dated November 2, 1926, and recorded in the Registry of Deeds for said County of Oxford, Book 382, Page 179, conveyed to the L. W. Ramsell Company, a corporation organized and existing under the laws of said State of Maine, and located at Bethel, in said County of Oxford, a certain parcel of land situated in said Newry, with the buildings thereon standing, bounded and described as follows, viz: On the north by land of Pearl Kilgore, formerly the land of Herbert O. Chapman, on the east by land formerly of Ralph W. Kilgore, on the south by land of Charles C. Bennett, formerly, and on the west by Bear River, so called.

Also a certain other lot or parcel of land being formerly the Edmund P. Chapman fifty acre lot, so called, and being one-half of the hundred acre lot purchased by said Chapman et al. of R. L. Paine, said Chapman half being conveyed to Reuben Foster, and being the southeasterly half of lot numbered six in the seventh range of lots in said Newry, or that part of Newry which was formerly Andover West Surplus.

And whereas the condition of said mortgage has been broken; Now, therefore by reason of the breach of the condition thereof said undersigned corporation claims a foreclosure of said mortgage.

Dated at Bethel, Maine,
this 20th day of January, 1931.
L. W. RAMSELL COMPANY,
by Cleveland W. Ramsell,
its treasurer, their duly authorized,
State of Maine,
County of Oxford ss.

Subscribed and sworn to as true by said Cleveland W. Ramsell, Treasurer, as aforesaid, before me,
EDWARD C. PARK,
Justice of the Peace.

Morning

Action of the Bowels

The commonest ailment of the American people, and the one that causes the most serious sickness is constipation. While many remedies are recommended you may be absolutely sure that this old-fashioned remedy, "L. F." Atwood's Medicine, taken in small doses, and continued for several weeks, will correct this slow bowel action. 60c for 60 doses everywhere.

"L. F." Atwood's Medicine

It Is For Mutual Good We Invite Your Business

Bank depositors are the folks who have much to do with business prosperity in every community.

IN proportion as bank deposits grow, it becomes possible for business men to borrow money from the bank, thus developing their property or their business. WE would welcome you as a bank depositor.

RED TAG SALE

Starts Saturday, Jan. 24

Bargain on All Winter Goods to be closed out.

Boston Now Has Its First Women Judges

The first Judges of their sex in Boston, Mass. Mrs. Emma F. Schofield, left, and Mrs. Sadie L. Shulman, are shown being sworn in by Governor Allen, who appointed them shortly before going out of office.

NEW SOVIET PREMIER

Vladimir I. Lenin, one of the three secretaries of the Communist party, who has succeeded Alexei Rykov as president of the council of people's commissars in Russia, a position corresponding to premier in other countries. Molotov is an author and one of the best educated men among the rulers of Russia.

WEST PARIS

The Woman's Literary Club met at the home of Mrs. H. L. Paley Friday afternoon, Jan. 16. Three new members joined the club, making a good attendance for the afternoon. It was voted to make a winter study of Maine women, each meeting to be opened with a suitable quotation. Mrs. Ethel Penley was elected to the program committee as chairman. The next meeting is to be Jan. 30th, at the home of Ruth Tucker.

Mrs. Marjorie Hill, N. G., Mrs. Laura Berry, V. G., Mrs. Minnie Day, chaplain, Mrs. Phila Mayhew, Mrs. Persis Lane, Mrs. Elva Ring, Miss Mahel Rieker, past grand, and Mrs. Maud Day and Mrs. Eva Doble attended the funeral of Mrs. Oscar Chandler at West Summer last Thursday.

Walter Chandler attended the funeral of Mrs. Oscar Chandler.

Mrs. Leona Rowe of Buckfield was a guest Thursday at D. H. Fiddell's.

The P. T. A. held an interesting meeting on Monday evening, Jan. 12.

Subject, Thrift. Several papers by high school students were read, Misses Hattie and Leone Bane sang a duet, and the high school orchestra gave several selections. On account of the storm the meeting was not largely attended.

Daughters of Union Veterans met at the home of Mrs. Emma Holts Monday evening, Jan. 19. A program in observance of the birthday of the late President McKinley was rendered. A fine

walk was one of the features of the evening.

At the Universalist church Sunday morning, Jan. 11, Rev. Eleanor B. Forbes spoke as requested by state and national executive officers on the need and uses of the National and State Conventions. A duet was rendered by Gerry Emery and Miss Edna Richardson, and the latter sang a solo.

On account of the illness of Mrs. Helen Carlson of Owl's Head, the Chinese wedding to have been presented at the Universalist church Thursday evening was postponed, but the Chinese supper was served to a fair sized company.

Ivan, the young son of Mr. and Mrs. Leon Proctor, is ill with scarlet fever.

Mr. and Mrs. Stanley I. Perham have arrived here from their wedding trip, and have gone to keeping house in the H. H. Wardwell house on Pioneer St.

See High Shoe Manufacturing Co. reorganized operations.

ELECTROL

What Does It Mean?

The oil heating system that has economy of operation and service behind it.

Enticing Parlor for Children

"Won't you come into my parlor?" might well be the title for this picture of a charming piece of furniture for children shown in the exposition at the American Furniture mart in Chicago, January 5 to 17. The parlor is completely equipped with furniture exactly duplicated, on a small scale, the chairs, tables, etc., built by the same concern for grown-ups.

He's the Czar of the Concert Stage

Miss A. L. ... of New York ...

King Carol at His First Parliament

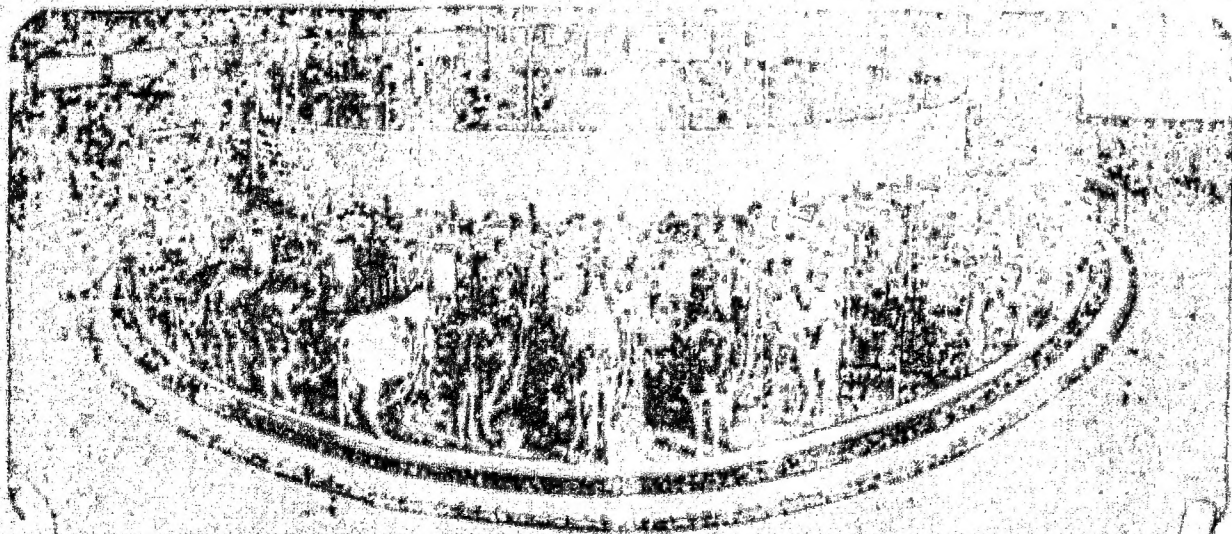

King Carol II of Rumania, outside the parliament building in Bucharest after he had officially opened the winter session. This was the first time Carol, in his new position as ruler of Rumania, opened its parliament.

KING'S PRESS AGENT

It may surprise most Americans to learn that King George of England has a press agent. He is F. H. Mitchell, who is the link between Buckingham Palace and the world press; and he and his staff also prepare the official Court Gazette, which appears daily.

Rotolactor Washes, Dries and Milks 50 Cows

The Rotolactor, composed of a collection circular table, 20 ft. in diameter, on which 50 cows are crowded and rotated as they make one complete revolution with the table. It is an invention and development of the N. J. Three times a day 1500 cows are milked in this machine in a matter of minutes. At the completion of each 12 1/2 minute revolution, each cow returns unguided to her stall in the two hour, 10 min. of a day away. By means of this equipment a degree of cleanliness and purity of milk never before attained is made possible.

The Best Time to Advertise

The best time to advertise is when advertising will do the most good.

Not in many years has a condition existed in this country when it was so necessary to advertise and advertise liberally.

Everyone is thinking hard times. It has been talked too much. Many people who have not suffered any curtailment of income have reduced their purchases radically. They are buying only what they absolutely have to have, and sparingly of that. They have been influenced by the talk and atmosphere of hard times until they have come to feel that they too are hard up and must curtail their buying.

The opportunity of the merchant at this time is not only to preserve his sales and create a desire for them through advertising, but to help dispel the gloom, place of gloom and depression that has settled over the country and all the business of merchandise so generally.

Good advertising is the advertisement that tells of the good merchandise, its class, service and price. It will do more to bring about a normal business condition in this community than any other thing that can be done.

The Citizen is, more than ever before, prepared to offer real service to its advertisers, assistance in the preparation of advertising copy and reaching more readers than before to its readers, an opportunity to profit by the offerings of its advertisers.

Just give us a call for complete details of our greater advertising service. It places you under no obligation and offers a practical solution of the present "bad business."

CHURCH ACTIVITIES

FIRST CONGREGATIONAL CHURCH
L. A. Edwards, Pastor
930 Church School. Miss Ida Packard, Superintendent.

10:45 Morning Worship. Subject of sermon by the pastor will be "Is Our Christianity Christian?" The founder of Christianity said to his followers, "Love one another as I have loved you." He also said, "As ye would that men should do unto you, do ye even so unto them." Can we disregard these commands and satisfy God and Conscience with a few paltry gifts for a few hours in the place of worship? In a recent article in the Congressionalist the writer asks "Is our preaching Pagan or Christian?" It is a thought provoking question, to say the least.

If our preaching becomes degraded to Pagan levels, can we expect our people to rise to Christian heights? All churches are urged to be present.

BETHEL M. E. CHURCH
Rev. R. C. Dalsell, Minister
Sunday School at 9:45. Superintendent, Mrs. Bertha Wheeler.
Morning Worship, 10:45.
Epworth League, 8 P. M.
Evening Worship, 7 P. M.
Class Meeting Tuesday evening at 7 P. M.
Friday evening, Jan. 21, a one-act play, "Thirty Minutes for Rehearsal," will be presented at the Methodist Church. The proceeds will be used to purchase a curtain for the church. Following is the cast of characters:

Mr. and Mrs. Howard Allen, Bernard Allen and son, Mr. and Mrs. Ernest Brown, Mr. and Mrs. E. K. Shedd, Fred Beard and June Penfold, Mr. and Mrs. Ernest Brown.

SOUTH WOODSTOCK

Mrs. Gayden Davis and little Edith spent the day Thursday, Jan. 15, with Mrs. Leslie Bryant of Bryant Pond. Mrs. Bryant was formerly Edith Partridge of this place, a near neighbor of Mrs. Davis.

Atwood Radcliff has hired out for the remainder of the winter to Benson Brothers of Bryant Pond, working as helper on the wood trucks.

Mrs. Mary Felt is suffering from a severe attack of laryngitis at this writing.

George W. Davis & Sons have been harvesting their ice supply of several hundred cakes (16 inches square) of "clear blue," "the best ever" from Andrews' mill pond.

Fred and Alvah Hendrickson secured their ice this week, also Frank and Elsie Davis have cut their necessary amount.

Everyone is glad to hear that Miss Ruth Cole will return home this week from the C. M. G. Hospital, Lewiston, where she has been for a long time for treatment.

Mr. and Mrs. Ralph Dean recently visited Mrs. Dean's sister, Ruth, at the C. M. G. Hospital and found her greatly improved and "on the road to complete recovery."

Walter Littlehale of South Paris, formerly of Curtis Hill, this town, has been boarding with his wife's aunt, Georgie Hendrickson, while engaged in ice cutting on Andrews' mill pond.

Mr. Littlehale has hired out to work for his brothers-in-law, P. G. and C. R. Wilson, dealers in wood and lumber, at Mechanic Falls, entering their employment Jan. 18.

Mrs. Laura Thorn and little daughter were callers on Mrs. Eliza Davis on Thursday.

Mr. and Mrs. Gerald Davis were week end visitors at the home of her parents, Mr. and Mrs. O. P. Brown of Bryant Pond. Mr. Davis returned home Sunday but Mrs. Davis will spend the week as guest of her parents and her sister, Mrs. Leland Austin and family.

A telephone message announced the birth of a baby daughter, Sunday night at eight o'clock to the wife of "Phon" Brown, our patrolman on the State highway. Mother and baby are fine. Mrs. Brown was formerly Margery Verrill, and very popular among the younger folks.

Alta Hendrickson and Andre Crocker were selling Jell-o through the place recently. A sharp competition between

the girls and boys of Union School was being staged in selling the product, and at last reports the girls' side was leading.

SOUTH ALBANY

Miss Lucie Kimball was home over the week end from Norway High School.

Mr. and Mrs. Clayton McIntire and family were Sunday guests of Mr. and Mrs. F. E. Scribner.

Miss Frances Holt was quite ill on Sunday.

Rev. R. A. Brandon conducted church services at the Clark schoolhouse Sunday at 2 P. M. A good attendance but a larger one is hoped for at the next meeting, Feb. 1st.

James Kimball, J. E. Brown, W. E. Canwell and E. C. Henley harvested their ice last week.

Boy Wardwell called on Charles Morrey Saturday. He is gaining.

Melvin Morrey from Norway was at Charles Morrey's Sunday.

Mr. and Mrs. Howard Allen attended Grange installation at North Waterford Saturday.

Mr. and Mrs. E. K. Shedd were Sunday guests at Ray Lord's.

Ivan Kimball is cutting wood for F. E. Scribner.

Mr. and Mrs. A. D. Churchill were in Norway one day recently.

R. E. Hill and Fred McAllister were out with the snow roller Thursday for the first time for the winter.

VOLUME XXX
BOSTON MIL
LOWE

Butter Prices Re
Since

Maize dairymen will receive the low for their January Information from England Milk Producers. The reason for this is the lowest they have and the competition in the market agencies selling milk. The primary cause, prices, according to the low butter market first 10 days of January averaged less than 10 cents a pound. At that price made into butter is a dreadweight or less a quart. If the milk would be worth about 10 cents a quart, it would be worth about 10 cents a quart. While comparatively made in New England made in the West has the effect on milk prices. The value of western milk is more than what if made into butter, per hundredweight cream comes in from England cream and New England farmers only a little, if any, western cream brings Eastern markets.

Under these conditions milk above what it brings a price based on values. In January \$1.25 a hundredweight quart. The market is now seven cents at Boston or \$2.43 a quart in Maine. It is estimated all milk will be sold with bring \$2.43 a quart. There is a selling net price for about \$1.85 per hundred quart. There is a January price since started in 1917.

Gould Acad
The annual election of Y. M. C. A. resulted President—George Vice President—D. Secretary—Summer Treasurer—Philip Executive Board—Committees for the to be held in February.

The seniors have class play the three Nut Family, by Parts have been assigned and are in progress.

Mrs. Barton, Willie Barton, Robert Bent, Ezra Silscomb, Helen Bent, Agatha Silscomb, J. Clarence Blodgett, Harold Van Houten, Hilda.

The second game girls' inter-class basketball Thursday afternoon was defeated the juniors three points. The game from start to finish score of 23-23. Even high scorer for the seniors for the juniors.

The freshman girls' basketball team on Monday played the sophomores and forced the sophomores to the whistle blowing 23-23 in favor of the sophomores and the freshmen.

What class will win? Time will tell.
